# **Viewing System Information**

1 In the EC10 Configuration Screen, select the **System** Tab. This screen allows you to view Log files and other system information.

# Handing Over the Monitor

If you are handing over the monitor to the end-users directly after configuration, make sure that it is in Monitoring mode.

Ensure that the users have access to the following documentation delivered with the monitor:

- Training Program M8000-9461x for self-training on the monitor before use
- Instructions for Use M8000-9001x for more detailed questions during use

#### WARNING

All users must complete the training program and read the Instructions for Use before working with the monitor.

These training materials (in combination with this service guide) can also be used to train service personnel on how to use and service monitor.

Please refer to the Testing and Maintenance section of this service guide to determine the respective safety and performance tests to be performed before handing over the monitor to the customer.
